

Brain Imaging Study @ MIT

For children ages 8-17

WHAT?

Brain Imaging and fun memory games!

WHY?

Prizes, \$70 gift certificate, printout and a CD of your child's brain pictures!

WHERE?

MIT campus, easy access and free parking!

WHEN?

When you have time - WEEKDAYS OR WEEKENDS!

This study is conducted at MIT in the Laboratories of Cognitive and Affective Neuroscience of Professor John Gabrieli. Your child will play memory games with us while we use a brain imaging tool that acts just like a brain camera which is safe for children. See our website: <http://web.mit.edu/gabrieli-lab/kid.htm>
