Merrimack College

Dear Friend:

I am writing to share with you a unique opportunity that can help enhance your organization. Merrimack College's Community Engagement Fellowship Program provides full-time graduate students who can bring real-world and academic skills to your organization to assist you in reaching your goals. This year - our pilot year - we have Fellows at: Merrimack Valley Habitat for Humanity; Community Teamwork, Inc.; Greater Lawrence Community Action Council; Merrimack College; and Massachusetts Campus Compact.

I invite you to attend one of our Info Sessions to learn more about the program, the matching process and important dates. Ask questions and hear how your Fellow can help you and your organization. Please read on for additional information and Info Session dates and times. Thank you.

Audrey Falk, Ed.D.
Assistant Professor and Program Director
Community Engagement

How can a Fellow assist you and your organization?

Fellows build capacity in critical needs for each specific organization.

Merrimack Fellows provide:

- * Intensive and ongoing support in key areas - 25 hours a week from September to May.
- * Important project-based and overall administrative support, including researching foundations, writing grant proposals, planning special events, developing and managing programs, preparing marketing materials such as brochures and press releases, and more.

Chosen through a rigorous and highly competitive application process, Merrimack Fellows are enrolled in a master's degree program (M.Ed.) in Community Engagement. Our Fellows hold bachelor's degrees and have the necessary support and professional development to succeed in their sites.
